

## **Research Associate**

The research associate will assist with data, research, and evaluation activities for Children's Trust. Key responsibilities include supporting the agency's efforts to make data-driven decisions; engage in research activities to impact programs, practice, and policies; and ensure programs are meeting fidelity standards, achieving outcomes, and impacting the agency's mission. The research associate will report directly to and carry forward the tasks and initiatives as outlined by the senior director of community impact.

## **Qualifications**

Have a master's degree in related field such as public health, community psychology, social work, etc.

**Doctoral level graduate program student is preferred.**

Experience working with data, research, and/or evaluation.

Experience with Microsoft Office and data analysis software packages (i.e., SPSS, SAS, or Stata).

Strong foundational knowledge of health promotion and primary prevention.

## **Benefits**

Children's Trust provides a competitive benefits package including medical, dental, life, short-term and long-term disability, matching voluntary deferred compensation, and paid time off and holidays.

## **Salary Range**

\$ 43,349 - \$60,689

## **Hiring Range**

Min: \$50,019    Max: \$54,019
